## BUREAU OF ANIMAL INDUSTRY.

JOHN R. MOHLER, CHIEF OF BUREAU.

### SERVICE AND REGULATORY ANNOUNCEMENTS.

NOVEMBER, 1919.

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 50 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

**NOTICES REGARDING MEAT INSPECTION.****MARKING MEAT AND MEAT FOOD PRODUCTS INSPECTED AND FOUND TO CONFORM TO THE NAVY SPECIFICATIONS.**

Referring to Amendment 11 to B. A. I. Order 211, a special mark composed of the letters U. S. N. within a shield was adopted for use in the meat-inspection service in cooperation with the United States Navy as the mark to be placed upon containers of meat and products to identify these products inspected by bureau inspectors and found to conform to the Navy specifications. Some time ago it was brought to the attention of the bureau that this mark had appeared upon products offered to the Navy which did not meet the Navy specifications, this being done with the apparent intention of misrepresentation. Under the regulations which were then effective there was no

way of prohibiting the unauthorized use of this mark or of punishing unscrupulous persons who falsely applied it. The amendment was therefore issued for the purpose of describing this special mark and designating its use, thereby placing the mark under the protection of section 9 of the act.

The Paymaster General of the Navy states that it is the desire of that department that this mark shall not be used as contemplated in the amendment, but that in lieu thereof the use of the mark containing the letters U. S. N., the number of the inspector, the date, and the city in which the meat was prepared be continued for the present. Inspectors will please be governed accordingly.

#### METTWURST CLASSED AS A PORK PRODUCT CONSUMED WITHOUT COOKING.

Inasmuch as products known as "Mettwurst" resemble sausages of kinds prepared customarily to be eaten without cooking, and, in fact, are known frequently to be consumed without cooking, it is directed that all mettwurst manufactured in official establishments, if it contains any muscle tissue of pork, shall be prepared in accordance with the methods prescribed by the bureau for the preparation of pork products customarily eaten without cooking.

#### SAMPLES OF VEGETABLE OILS FOR LABORATORY EXAMINATION.

Samples of vegetable oils submitted by inspectors in charge of meat inspection for laboratory examination should, as a rule, represent the oil in the condition in which it is to be used as an ingredient of meat food products. When the oils are used in the form in which they are received at the establishment samples may be taken at the time of receipt or at any time prior to use. When oils are received in a crude or partially refined condition and are subsequently refined, bleached, or deodorized, samples should not be taken until fully prepared for use unless circumstances or conditions should be such as to make sampling at an earlier stage advisable. Whenever the samples submitted do not represent the oil in the finished condition in which it is to be used as an ingredient of meat food products, the laboratory should be fully informed as to the stage of process at which the sample was taken and as to the information desired.

**INSPECTION AND TESTING OF ANIMALS FOR CANADA.**

The following changes have been made in the list of practicing veterinarians registered by the bureau and authorized to inspect and test with mallein horses, mules, and asses intended for export to Canada:

**Names Added to List.**

Dr. J. H. McNeil, Trenton, N. J.

Dr. C. C. Wright, Stayton, Oreg.

**Change in Address.**

Dr. M. B. Purdy, from Choteau, Mont., to Perham, Minn.

**REGULATIONS GOVERNING THE INSPECTION, HUMANE HANDLING,  
AND SAFE TRANSPORT OF EXPORT ANIMALS.**

Amendment 1 to B. A. I. Order 264, "Regulations Governing the Inspection, Humane Handling, and Safe Transport of Export Animals," effective November 1, 1919, so amends Regulation 4 of that order as to provide for the tuberculin testing of cattle by a veterinarian authorized by the State of origin and approved by the bureau. This will not apply to dairy and breeding cattle for export to Canada, as the Canadian regulations require that a satisfactory tuberculin-test chart, dated not more than 60 days prior to the date of entry, by a veterinarian of the United States Bureau of Animal Industry, accompany such cattle.

---

**CERTIFICATES TO ACCOMPANY CATTLE FOR SHIPMENT TO CANADA  
FROM TUBERCULOSIS-FREE ACCREDITED HERDS.**

In connection with the shipment to Canada of cattle from tuberculosis-free accredited herds in the United States, attention is especially directed to that portion of Amendment 1 to B. A. I. Order 266 having reference to the certification of such cattle.

A similar provision has been made by the Canadian authorities for the acceptance of cattle from tuberculosis-free accredited herds in the United States, and in order to avoid the multiplication of certificates in these cases it has been decided to continue the use of the customary certificates issued for export dairy and breeding cattle, forms Q. D. 16 and Q. D. 17. Accordingly when cattle from an accredited herd are forwarded to Canada such certificates are to be used with a notation over the signature of the bureau inspector on each certificate to the effect that the cattle are from a tuberculosis-free accredited herd. The inspector should also indicate in connection with such notation the herd certificate number.

Certificates as described above are to be indorsed only by bureau inspectors whose names have been placed on file with the Canadian Veterinary Director General, in accordance with instructions which appeared in Service and Regulatory Announcements for March, 1919, page 20.

---

**CERTIFICATES TO ACCOMPANY SHEEP FOR SHIPMENT TO CANADA  
FROM THE STATES OF IDAHO AND WYOMING.**

Attention of inspectors in charge is directed to the last paragraph of instructions regarding certificates and reports of tests of animals for export to Canada, appearing in Service and Regulatory Announcements for March, 1919, page 21. Under date of November 11, 1919, an amendment to Canadian ministerial order No. 40 was issued, striking out the words "Idaho" and "Wyoming" in the first paragraph of section 3 of

said order. As a result of that amendment, importations of sheep for any purpose other than immediate slaughter from the States of Idaho and Wyoming will be subject to quarantine for 30 days at the boundary unless they are accompanied by a bureau certificate showing that they have been dipped twice in one of the preparations approved by the bureau.

### LICENSES FOR VETERINARY BIOLOGICAL PRODUCTS.

Licenses for the manufacture of veterinary biological products have been issued as follows for the year 1919, under the act of Congress of March 4, 1913 (37 Stat., 832), and the regulations made thereunder (B. A. I. Order 265.):

### LICENSES SUSPENDED.

Licenses have been suspended as indicated below after the presentation of conclusive evidence to the effect that the firms involved had violated the regulations of the department promulgated for the enforcement of the virus-serum-toxin law:

License No. 12, dated December 20, 1918, issued to the Royal Serum Co., Kansas City, Kans., was suspended June 28, 1919, for a period of 7 days beginning July 1, 1919.

License No. 23, dated December 20, 1918, issued to the Missouri Valley Serum Co., Kansas City, Kans., was suspended June 28, 1919, for a period of 10 days beginning July 1, 1919.

License No. 22, dated December 30, 1918, issued to the Standard Serum Co., Kansas City, Kans., was suspended June 28, 1919, for a period of 7 days beginning July 1, 1919.

License No. 124, dated December 20, 1918, issued to the Anchor Serum Co., South St. Joseph, Mo., was suspended November 15, 1919, for a period of 15 days beginning November 25, 1919.

Memorandum No. 296 of the office of the Secretary amends paragraph 89 of the Fiscal Regulations to read as follows:

*"89. Custody and use of transportation requests; extra fares.—Transportation requests will be obtained by the bureaus from the Office of Inspection, which office shall require a receipt therefor from an appropriate administrative officer of the bureau indicating the serial numbers of the requests and the fiscal year applicable. Administrative officers of bureaus charged with the custody of transportation requests shall require a like receipt when furnishing such requests for the use of persons authorized to travel upon the business of the department over the lines of any transportation company. Each officer or employee shall be charged with the requests received by him or placed in his custody, shall safeguard them the same as cash, account for them in accordance with these regulations, and be held responsible for the loss thereof and chargeable with the amount which may be required to be paid by the United States because of any improper use of the same."*

All transportation requests remaining unused in the possession of employees at the close of each fiscal year must be returned to the bureau issuing same, and after such bureau has made a proper record of these requests, they shall be forwarded to the Office of Inspection for record and cancellation.

Transportation requests shall be presented by the traveler to the proper transportation companies in exchange for tickets, mileage or scrip books. Separate requests will be used for parlor, chair or sleeping car accommodations. Transportation requests should be used for all travel upon business of the department where the fare involved is \$1 or more, except as provided in paragraph 86 (v). In case of refusal to accept a transportation request by the agent of any transportation company, the fact and any attending circumstances should be reported to the chief of bureau. Transportation requests drawn on one appropriation must not be used for travel chargeable to another appropriation. Transportation requests must not be used to cover extra fares on limited trains or deviations from direct routes of travel in connection with leave of absence or other personal business. Such extra fares must be paid in cash."

In the future the bureau will require a receipt for each issue of Government transportation requests. Inspectors and others in charge carrying a supply of transportation requests for issue to employees traveling under their supervision will likewise require receipts. In such cases the receipts may be kept in the station files.

## AMENDMENT TO CIVIL-SERVICE REGULATIONS REGARDING MILITARY PREFERENCE TO UNSKILLED LABORERS.

Section 2 of Regulation III of regulations governing appointments of mere unskilled laborers outside of Washington, D. C., has been amended to read as follows:

"Sec. 2. Upon completion of the physical examinations the board shall enter upon registers, by sex, the names of applicants rated at 85 or more in the order of their ratings except that honorably discharged soldiers, sailors, and marines, their widows, and the wives of soldiers, sailors, and marines disqualified by injuries received in service and line of duty, rated at 85 or more, shall have priority."

This amendment has been issued to give effect to the provision of the deficiency act of July 11, 1919, which bases preference on military service instead of disability incurred in the service and line of duty.

## OFFICIAL PURCHASE OF WEARING APPAREL PROHIBITED.

In accordance with a decision of the Comptroller of the Treasury, dated October 27, 1919, it will be impossible in the future for the bureau to approve for payment vouchers covering the purchase of "personal furnishings," i. e., a necessary part of the wearing apparel of officers or employees, in the absence of express authority of law therefor.

As there is at present no express authority in law for the purchase, by this bureau, of personal furnishings or wearing apparel of any kind, inspectors in charge and others will be governed accordingly.

## CALENDARS AND POSTERS OF OTHER EXECUTIVE DEPARTMENTS.

The bureau has arranged with the Navy, War, and Treasury Departments to distribute to its field offices calendars, posters, and posterettes to encourage the purchase of War Saving Stamps and enlistment in the Army, Navy, and Marine Corps. These calendars, posters, and posterettes will be sent to field officers by mail or with monthly shipments of supplies. It is desired that they be given conspicuous display. Field offices receiving a number of these calendars, etc., should see that the surplus is sent to substations.

Many of these calendars and posters are works of art, and if properly displayed will add to the appearance of field offices.

## PUBLICATIONS IN NOVEMBER.

[The bureau keeps no mailing list for sending publications to individual employees, but publications are sent in bulk to officers in charge for distribution to members of their forces. The number of copies sent varies with the subject or nature of the publications and the number and class of employees. Officers in charge will use their judgment and distribute publication to best advantage. So far as possible additional copies will be furnished on request.]
